New Learning: *How is delinquency influenced by the Criminal Personality traits?*

Learning path ↑

Progress Step 3
Use your research to complete the study chart and explain the criticisms of the study.

Success
1. I can explain the conclusions drawn within the study & add them to my study chart.
2. I can explain the criticisms of the study and include the graph of the findings.
3. I can support my peers so that they also understand this study by asking key questions and guiding their learning.

Progress Step 2
Use your research to complete the study chart on the Heaven study. Remember that a study chart MUST include pictures to support understanding.

Success
I can use the resources around me (website, textbook, my peers) to complete a study chart that includes:
1. The background, aim and hypothesis.
2. The method (research design, sample, procedure).
3. The results and findings of the study, including **an accurate graph showing the findings.**

Progress Step 1
Explain the background of the Heaven study and the aim of the researchers in studying delinquency.

Success
1. I can use the information from the Master class and on the website to explain the background and aim of the study:
   http://www.passmoresfalcon.com/heaven-study.html
2. I can actively read the outline of the study in the textbook and using the summary on the website.
3. I can explain the study to my teacher or my partner.

Prior Learning: understanding how criminal behaviour can be caused by Criminal Personality traits.
