

THEORY 1: SOCIAL LEARNING THEORY FOR CRIMINAL BEHAVIOUR

- Role model
- Identification
- Observe
- Imitate
- Vicarious reinforcement
- Direct reinforcement
- Internalisation

Really
Idiotic
Owls
Imitate
Very
Dopey
Iguanas

THEORY 2: EYSENCK'S THEORY OF CRIMINAL PERSONALITY

NATURE; DETERMINISTIC

- Genetic inheritance
- Extraversion
- RAS restricted
- Neuroticism
- ANS overactive
- Psychoticism
- Dopamine overactive
- Socialisation to criminality more likely

Giant
Elephants
Raced
Naughtily
Away
Pulling
Down
Squirrels

THEORY 1: PIAGET'S THEORY OF COGNITIVE DEVELOPMENT

NATURE; REDUCTIONIST

Universal	U ncle
Invariant	I ndie
Sensori-motor	S ees
<i>Object permanence</i>	O range
Pre-operational	P retty
<i>Animism</i>	A wesome
Concrete operational	C ows
<i>Linguistic humour</i>	L ightly
Formal operational	F ly
<i>Abstract thinking</i>	A way

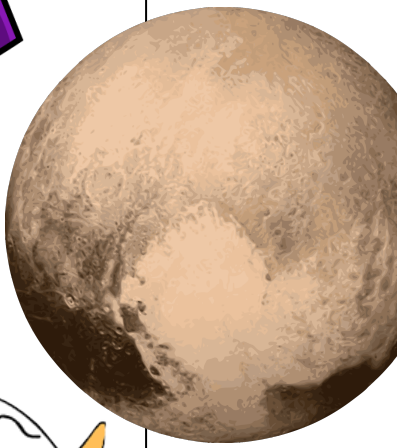

THEORY 2: LEARNING THEORIES FROM DWECK & WILLINGHAM – develop through learning

NURTURE; FREE WILL

- Dweck
- Growth mindset
- Intelligence through Effort
- Fixed mindset
- Intelligence is Innate
- Praise for effort
- Willingham
- No learning styles
- Meaning assists learning

Daring
Grandma
Edna
Flies
Into
Pluto
With
Naughty
Mickey

THEORY 1A: BIOLOGICAL THEORY FOR SCHIZOPHRENIA
– DOPAMINE HYPOTHESIS & BRAIN DYSFUNCTION

NATURE; DETERMINISTIC
REDUCTIONIST

Dopamine system overactive

Signals from

Dopaminergic neurons
are higher

Attention & perception

(causes thought disturbances & hallucinations)

Hippocampus lower volume

PFC underdeveloped

Thought disturbances &
delusions

Dangerous

Scorpions

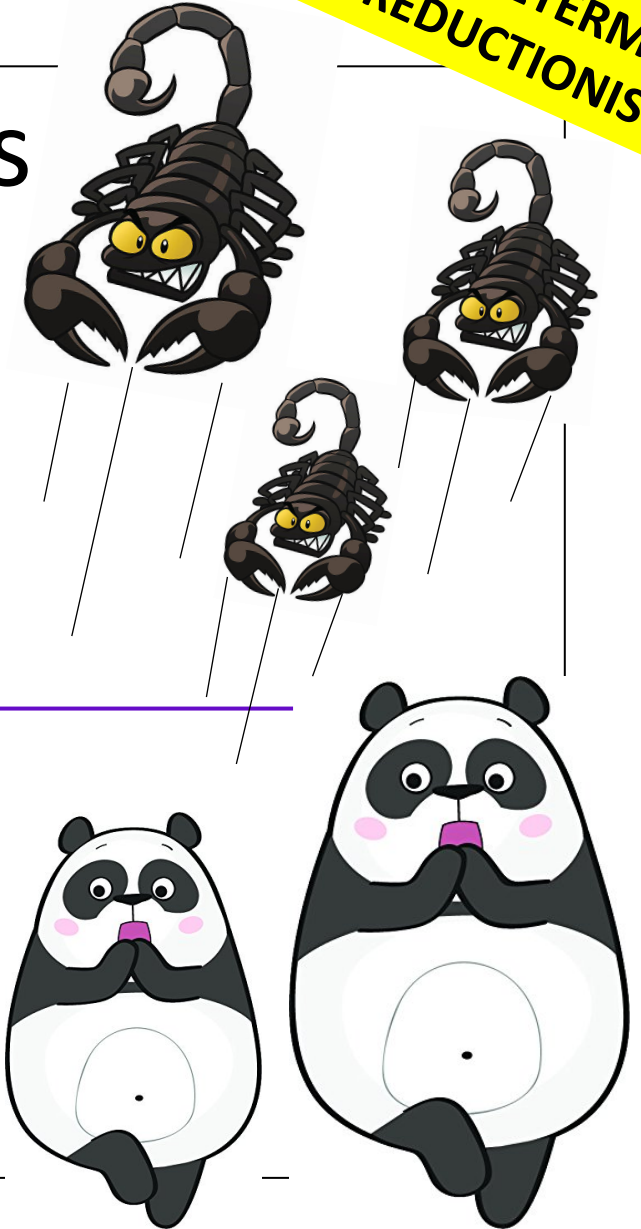

Dive

As

Helpless

Pandas

Tremble

THEORY 1B: PSYCHOLOGICAL THEORY FOR SCHIZOPHRENIA – SOCIAL **DRIFT** THEORY

Social class -> mental health
Lose touch with reality
Disengagement/withdrawal
Rejection by society
Poverty & isolation
Loss of status

Silly
Llamas
Drink
Really
Posh
Lemonade

NURTURE; CANNOT EST.
CAUSE & EFFECT

LLAMANADE

THEORY 2A: BIOLOGICAL THEORY FOR DEPRESSION – SOCIAL **RANK** THEORY

NATURE; REDUCTIONIST

- Evolutionary adaption
- Loser -> depressed -> accept lower rank
- Reduces conflict
- Prevents further competition
- Continued survival
- Protection from winner

E very
L ittle
R abbit
P refers
C runchy
P umpkin

THEORY 2B: PSYCHOLOGICAL THEORY FOR DEPRESSION – ABC THEORY

NURTURE; REDUCTIONIST;
FREE WILL

Depression caused by
Irrational thinking from
Perception of events (CBT)
Activating event
Beliefs about event
Consequences/actions
Events seen rationally = good
mental health
Free will of person

D orkey
I bis
P ractice
A
B
